DETAILED ACTION

Claim 40 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 42-43, 45-47, and 63-65, directed to the additional species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 40-48 and 62-66 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of a method of forming silicon dioxide on at least a portion of an outer surface of a handle wafer, nitridizing at least a portion an outer surface of the silicon dioxide effective to form silicon nitride on silicon dioxide, after nitridizing joining the handle wafer within an outer surface of silicon comprised by a device wafer and wherein the silicon nitride

extends only partially across the channel region in combination with the other limitations of independent claim 40.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
